

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

member of the teaching staff who is entitled to a Carnegie retiring allowance and who forfeits such retiring allowance because of any voluntary act by which the same is forfeited under the Carnegie rules, may be deprived of his retiring allowance from the university.

The university will provide life insurance that shall assure to each member of the teaching staff the payment of \$5,000 on his death before his retirement, payable to his wife if he leaves one, otherwise to his children, or, if he leaves none, then to such person as he may, with the approval of the president, designate.

"An alternative" plan" submitted by the committee on pensions and also approved covers the cases of members of the faculty who hold deferred annuity policies issued by the Teachers' Insurance and Annuity Association of America or other companies approved by the university finance committee. The university will, on the request of a member of the faculty and his relinquishment of all benefits under the insurance and pension plan, contribute toward the payment of the premiums on such annuity policies a sum not exceeding five per cent. of his annual salary, nor a maximum of \$300.

GIFTS TO THE AMERICAN MUSEUM OF NATURAL HISTORY

GIFTS of \$1,000,000 by Mr. John D. Rockefeller, Jr., and \$250,000 by Mr. George F. Baker to the American Museum of Natural History were announced by President Henry Fairfield Osborn at a meeting of the executive committee of the board of trustees last week, when the following resolutions were passed:

Resolved, That the trustees accept with grateful thanks the splendid gift of \$1,000,000 presented to the museum by Mr. John D. Rockefeller, Jr., for its corporate purposes and hereby take pleasure in applying it to the permanent endowment fund, the principal to be kept invested and the income only to be expended for the work of the institution.

This munificent gift, valued at more than a million dollars, is the more appreciated because it is received at a time when the increase of the permanent endowment by at least \$2,000,000 stands as the paramount need of the museum, in order that its scientific exploration and research may not be curtailed and in order that it may continue to render to public education, especially

through the school system of the city and country, a service which is increasing in importance and is receiving universal approval of educators.

Mr. Rockefeller's attitude in his generous terms of gift and in his liberal-mindedness with respect to the use of this fund is a further source of deep satisfaction and encouragement to the trustees because it indicates his hearty endorsement of the aims and purposes of the museum and of the trustees' policy in its development and expresses his belief in the present and future service which it can render to science and education for all the people.

In recognition of Mr. Rockefeller's interest in the museum, the trustees take pleasure in hereby electing him a benefactor.

Resolved, That the trustees desire to record their deep sense of gratitude to Mr. Baker for his generous gift of \$250,000, which constitutes the initial contribution to the much needed enlarged endowment for the growth and development of the museum. The trustees deeply appreciate not only the intrinsic value of the gift, but especially the generous attitude of the donor in permitting the unrestricted use of the income of this fund—an action which is indicative of his confidence in the administration of the museum and the aims and purposes of the institution. In recognition of Mr. Baker's earlier contributions, the trustees had previously elected him a benefactor, and can therefore merely express their gratitude to him by extending their heartfelt thanks and best wishes for continued good health and happiness.

THE INTERNATIONAL ASTRONOMICAL UNION AT ROME

At the meeting of the International Astronomical Union at Rome from May 2 to 10, according to a report in *The Observatory*, the adherent countries represented were Australia, Belgium, Brazil, Canada, Czecho-Slovakia, Denmark, France, Great Britain, Holland, Italy, Japan, Mexico, Norway, Poland and the United States. Greece and South Africa, though adhering to the union, were not represented, while Roumania and Spain were represented, although the formalities connected with adhesion to the union had not been completed.

The list of committees for the coming three years drawn up by the executive committee was adopted. They were as follows, the name of the chairman being given in each case:
